Optivor Listed as 5th Fastest Growing Firm in Baltimore Area

Annapolis Junction, MD – Optivor Technologies, LLC was recently listed 5th on the Baltimore Business Journal’s annual list of *Fastest Growing Companies in The Baltimore Area*.

“Optivor’s growth is the result of quality and customer loyalty,” according to Stuart Chandler, Optivor President & CEO. “We changed our business model ahead of the economic downturn, to include more sustainable technologies, projects and customers.”

This is not Optivor’s first time on a BBJ list. Since inception in 2001, Optivor has been listed several times for size and growth. Presently, Optivor has federal and commercial clients in all 50 states, and in dozens of countries.

Optivor is well positioned for another record year in 2010. In August, Optivor moved into their new headquarter facility near Fort Meade, MD, giving them much needed space to support the growth. “We have made critical investments in people, technology and markets, to support our growing customer base,” noted Chandler.

At a time when most firms are trying to survive, Optivor is prospering. “We treat each customer like they are the sole reason for our success. Three years ago, we reviewed our business model and made critical changes. These changes are resulting in current and future success,” added Chandler.

About Optivor:
